

$\pm 2g/\pm 4g/\pm 8g/\pm 16g$, Low-Power 12-Bit Digital Accelerometer

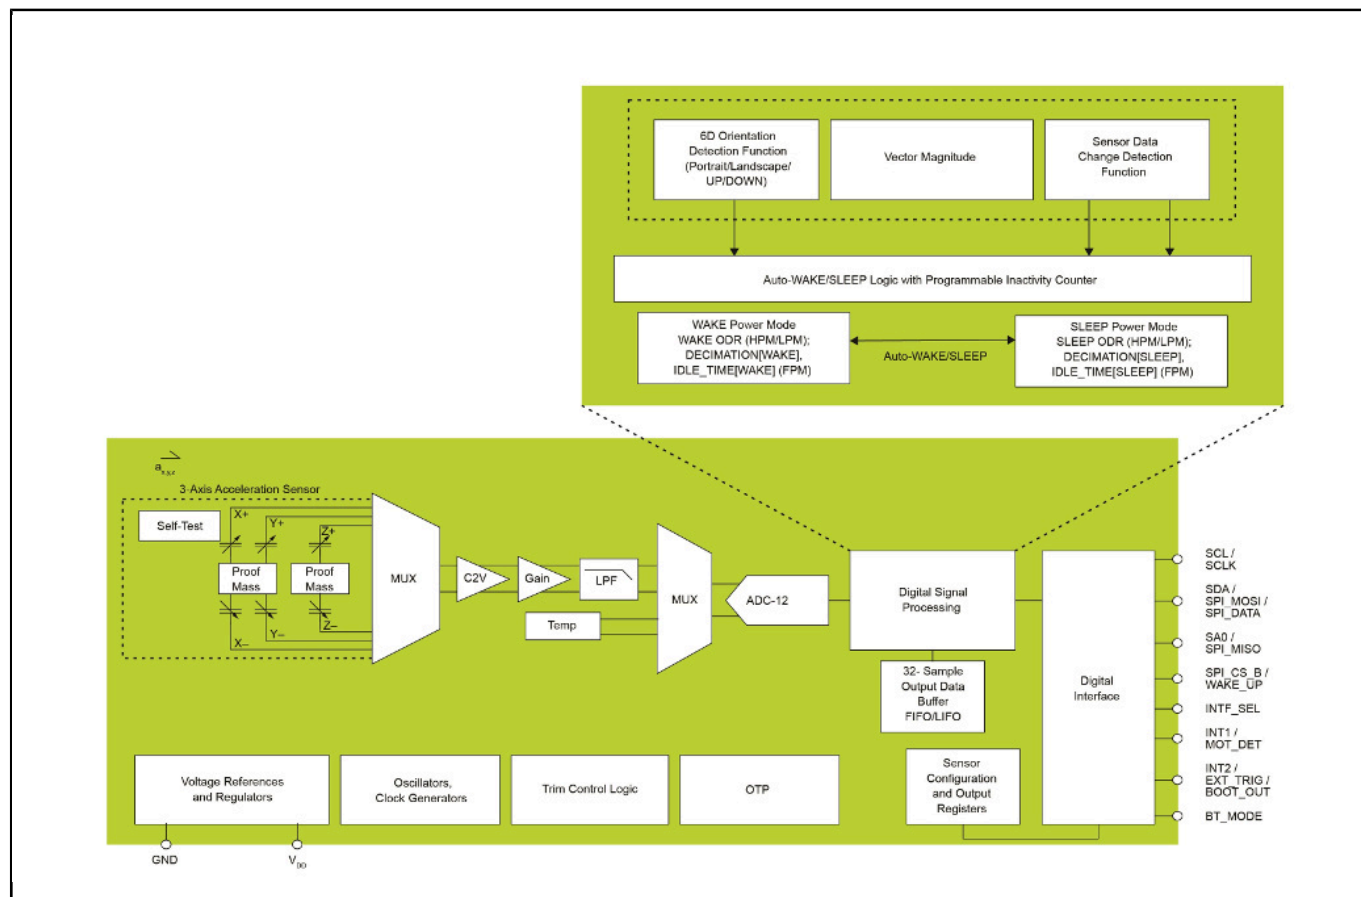

FXLS8964AF

Last Updated: Feb 26, 2025

FXLS8964AF is a compact 3-axis accelerometer designed for applications requiring ultra-low power wake up on motion. With AEC-Q100 qualification and an extended temperature range, this device is an ideal choice for Automotive Key Fob application.

This smart sensor includes advanced digital features such as the SDCD block for inertial event detection, auto wake sleep, 32 sample FIFO/LIFO buffer and a single wire interface, ensuring overall power savings and simplified host data collection.
